Devin Smith

Full Stack Developer

405.279.9645 • work@devin.la • in/spacedevin • Los Angeles

Summary

Full stack Javascript, PHP, NoSQL, React, Next.js, iOS, Android, Web3, AI developer, mentor & leader. Passionate agile product manager, UI/UX designer and creative lead with over 10 years of experience.

Experience

Lead Architect | AE Studio

2016 - present • Venice, CA

- Exceeded in fulfilling client expectations by applying agile methodology and frequent communication.
- Delivered products early and often using CI/CD and customer feedback loops.
- Developed full stack and hybrid native apps using Ionic, React Native, Flutter and C# Maui.
- Architected frontends using React, Next.js, Vue and Angular + backends using Node, Laravel, Rails, Redis and MongoDB.
- Lead our efforts of internal peer to peer rewards, getgratz.com with over 85% monthly employee engagement.
- Created the company website and oversaw some of its changes and evolution as the company grew to over 150 employees.

CTO | Crunchbutton

2012 - 2016 • Marina del Rey, CA

- Created designs, wireframes and product roadmap to leadership spec.
- Developed a PHP + MySQL backend with MySQL geospatial queries.
- Launched two separate apps for customers and drivers built using PhoneGap, Cordova, Angular.
- Collaborated with our small scrappy team using Git and Github.
- Provided front-end design and development for microsites and landing pages.
- Built a robust backend admin system for customer service, restaurants, drivers, and management to track orders in real time, and manage our whole backoffice.

PHP Architect | Luma Pictures

2009 - 2012 • Santa Monica, CA

- Created a customizable suite of VFX internal project and resource management tools used by 100% of the company.
- Ported hundreds of existing internal tools to a single PHP MVC framework using the existing MySQL database.
- Built a real time asset and resource scheduler using mootools.
- Created the front facing company website.
- Created a custom ticket integrated with Redmine.
- Created payroll management with Administaff payroll integration.
